

Audiology Services of Nemours/Alfred I. duPont Hospital for Children

Nemours Children's Clinic, Newtown Square | Bryn Mawr Hospital Health Center

3855 West Chester Pike, Suite 280 | Newtown Square, PA 19703 | Tel: 610-557-4800 | Fax: 610-557-4816

Caring for each child as if they were our own. The audiologists of Nemours/Alfred I. duPont Hospital for Children provide comprehensive audiology services for children from birth until age 18 at Nemours Children's Clinic, Newtown Square. The trained audiologists, who are exclusively dedicated to pediatric testing, provide services five days a week, and appointments can be made either with or without an ENT consultation. We gladly accept community referrals for audiological services.

Services include:

- Full hearing evaluations including audiometry, tympanometry, reflexes and OAE testing
- Newborn hearing screenings
- Central Auditory Process testing
- Auditory Neuropathy Spectrum Disorder testing
- Unsedated ABRs (Patients requiring sedated testing will be referred to the hospital location.)

Susanne Abate, AuD, CCC-A

Dr. Abate is a certified licensed audiologist. She received her Doctorate of Audiology from University of Pittsburgh and holds her Certificate of Clinical Competence in audiology from the American Speech-Language and Hearing Association. Her areas of interest include cochlear implants, hearing aids, and working with difficult-to-test patients.

Victoria Bartling, MA, CCC-A

Ms. Bartling is a certified licensed audiologist with more than 25 years of pediatric experience. She received a master's degree in audiology from the University of Pittsburgh and is a member of the American Academy of Audiology and American Speech, Language and Hearing Association. Her areas of interest include central auditory processing evaluation, auditory evoked potentials and assessment of the difficult-to-test.

Annemarie Cox, AuD, CCC-A

Dr. Cox is a certified licensed audiologist. She received her Doctorate of Audiology from A.T. Still University and holds a Certificate of Clinical Competence from the American Speech Language Hearing Association. Her areas of interest are pediatric vestibular assessment, evoked potentials, and ototoxic monitoring.

Rebecca Huzzy, AuD, CCC-A

Dr. Huzzy is a certified licensed audiologist. She received her Doctorate of Audiology from Bloomsburg University and holds a Certification of Clinical Competence in Audiology from the American Speech-language Hearing Association. She is on the cochlear implant and auditory neuropathy spectrum disorder teams, and her areas of interest are hearing amplification, cochlear implantation, auditory brainstem response and auditory processing disorders.

Emily Zwicky, AuD, CCC-A

Dr. Zwicky is a certified licensed audiologist. She received her Master of Education in Audiology at the University of Virginia in Charlottesville, VA and her Doctorate of Audiology from Salus University in Elkins Park, PA. She is the coordinator of the Multidisciplinary Vestibular Team and her areas of interest include pediatric vestibular assessment, evoked potentials and hearing aid amplification.
