

## Nemours Children's Clinic, Pensacola

In Pensacola, the Nemours Children's Clinic is affiliated with Sacred Heart Children's Hospital and offers primary care physicians and families a much needed resource for children with complicated health issues. Through all of our pediatric divisions, Nemours is the primary provider of pediatric specialty services in northwest Florida and south Alabama.

Eight Nemours specialists from Pensacola were recently named among the Best Doctors in America® 2007-2008.

### Programs and services offered:

- Lung and Respiratory Care (Pulmonology)
- Orthopedic Services
- Rheumatology

### Improving critical care

Our Critical Care Division led an effort to improve care and outcomes through the implementation of new software for the pediatric intensive care unit at Sacred Heart Children's Hospital. The division began using a national database to compare patient care outcomes to national benchmarks with very favorable results.

### Advancing diabetes education

Our Endocrinology specialty obtained American Diabetes Association recognition for their pediatric Diabetes Self-Management Education (DSME) program.

### Pioneering cardiac care

Our Cardiology division was granted accreditation by the Intersocietal Commission for the Accreditation of Echocardiography Laboratories (ICAEL). The Nemours lab is one of the first 1,000 echocardiography labs in the U.S., Canada and Puerto Rico to be recognized for its commitment to high-quality patient care and is one of only a few accredited pediatric and fetal echo labs in the state of Florida.

### Helping more children with cancer

With assistance from Nemours physicians, there is now a Hematology/Oncology Pediatric Unit specially dedicated to children with cancer. The Thomas Jenkins Pediatric Oncology Unit, located at Sacred Heart Children's Hospital, is named after Dr. Jenkins, a Nemours Hematologist/Oncologist.
