

Nursing Professional Practice Model

**Extraordinary Care Creating
the Healthiest Generations of Children**

Nursing Professional Practice Model

Extraordinary Care

"My professional nursing practice is driven by my core belief that all patients, regardless of background or situation, deserve compassion. My goal is to be a light in the dark and to facilitate healing and understanding in what is often the most difficult time in their life."

"Caring for children is the most rewarding field of work imaginable ... I cannot imagine doing anything else."

Foster a feeling of "community and sense of purpose."

Extraordinary Nurses

"Inspiring many people to become a nurse by sharing stories and experiences."

"When a child gave me a big hug and his father said he had never given anyone a hug other than him and his mother. Brought me to tears."

"Watching the sickest kids get better — their resilience is my motivation."

Extraordinary Results

Nursing and health care are ever-changing ... continuing education and having the willingness to change based on the latest evidence are essential ... sharing knowledge to better the lives of others.

The desire to provide the best evidence-based care to my patients, to do my very best at helping them heal ... build experience so that I can be a knowledgeable resource to new nurses ...

Helping children and their families cope with chronic diagnoses in a way that promotes quality of life.

Nursing Vision, Mission and Values
