

Internship Program Admissions

Date Program Tables are updated: 4/1/2021

Briefly describe in narrative form important information to assist potential applicants in assessing their likely fit with your program. This description must be consistent with the program's policies on intern selection and practicum and academic preparation requirements:

We welcome applications from applicants in APA-accredited doctoral graduate programs in clinical, school, or counseling psychology who have completed all required coursework and the dissertation proposal by the application deadline. We look holistically at each application and do not require a minimum number of hours for intervention or assessment. Our application review focuses on fit with our program in terms of:

- Child/adolescent/pediatric experiences: Successful applicants usually have dedicated a significant portion of their graduate training to work with children and adolescents in the domains of intervention, consultation, and/or assessment;
- Setting: Successful applicants usually have worked in settings that include hospitals, integrated primary care clinics, and/or other multidisciplinary settings);
- Commitment to serving diverse populations and considering individual and cultural diversity variables in service delivery; and
- Commitment to evidence-based practice.

We understand that applicants' hours and practicum experiences likely have been adversely affected by the COVID-19 pandemic. Our application review has always been holistic and not overly focused on hours, but please be assured that applications will not be penalized in any way for the impact of COVID.
