**KEY FINDINGS**

**WEIGHT STATUS (AGES 6-17)**

- 36% of children are considered healthy weight.
- 31% are considered overweight.
- 31% are considered obese.

**HEALTHY BEHAVIORS (AGES 6-17)**

- 54% of children consume 5+ servings of fruits and vegetables per day.
- 50% of children are physically active for 60+ minutes every day.
- 55% of children consume 2 or less sugar-sweetened beverages per week.
- 53% of children are considered "normal weight".

**WEIGHT STATUS (AGES 0-23 MONTHS)**

- 53% of children are considered healthy weight.
- 21% are considered overweight.
- 26% are considered obese.

**HEALTHY BEHAVIORS (AGES 0-23 MONTHS)**

- 54% of children consume 5+ servings of fruits and vegetables per day.
- 50% of children are physically active for 60+ minutes every day.
- 55% of children consume 2 or less sugar-sweetened beverages per week.
- 53% of children are considered "normal weight".

**FAMILY & NEIGHBORHOOD ENVIRONMENT (AGES 6-17)**

- 65% of children have a place to walk.
- 80% of children have a place to play outside.
- 55% of children lived in neighborhoods where it is "very easy" to get to a place to walk.
- 59% of children lived in neighborhoods where it is "very easy" to get to a place to play outside.

**HEALTH AND HEALTH CARE (AGES 0-17)**

- 95% of children saw a health care professional for care during the past 12 months.
- 59% of children lived in neighborhoods where it is "very easy" for children to play outside.
- 55% of children lived in neighborhoods where it is "very easy" for children to walk.
- 55% of children were physically active for 60+ minutes every day.

**WEIGHT CARE (AGES 0-17)**

- 55% of children were breastfed for 6+ months.
- 90% of mothers expressed concerns about their child's weight.
- 55% of children were physically active for 60+ minutes every day.
- 55% of children consumed 5+ servings of fruits and vegetables per day.

**WEIGHT CARE (AGES 0-23 MONTHS)**

- 55% of children were physically active for 60+ minutes every day.
- 55% of children consumed 5+ servings of fruits and vegetables per day.
- 55% of children were physically active for 60+ minutes every day.
- 55% of children were physically active for 60+ minutes every day.

**FAMILY & NEIGHBORHOOD ENVIRONMENT (AGES 0-23 MONTHS)**

- 59% of children lived in neighborhoods where it is "very easy" to get to a place to walk.
- 59% of children lived in neighborhoods where it is "very easy" to get to a place to play outside.
- 55% of children lived in neighborhoods where it is "very easy" for children to play outside.
- 55% of children lived in neighborhoods where it is "very easy" for children to play outside.

**HEALTHY BEHAVIORS (AGES 0-23 MONTHS)**

- 54% of children consume 5+ servings of fruits and vegetables per day.
- 50% of children are physically active for 60+ minutes every day.
- 55% of children consume 2 or less sugar-sweetened beverages per week.
- 53% of children are considered "normal weight".

**WEIGHT CARE (AGES 6-17)**

- 55% of children were physically active for 60+ minutes every day.
- 55% of children consumed 5+ servings of fruits and vegetables per day.
- 55% of children were physically active for 60+ minutes every day.
- 55% of children were physically active for 60+ minutes every day.

**FAMILY & NEIGHBORHOOD ENVIRONMENT (AGES 6-17)**

- 65% of children have a place to walk.
- 80% of children have a place to play outside.
- 55% of children lived in neighborhoods where it is "very easy" to get to a place to walk.
- 59% of children lived in neighborhoods where it is "very easy" to get to a place to play outside.

**HEALTHY BEHAVIORS (AGES 6-17 UNLESS OTHERWISE NOTED)**

- 54% of children consume 5+ servings of fruits and vegetables per day.
- 50% of children are physically active for 60+ minutes every day.
- 55% of children consume 2 or less sugar-sweetened beverages per week.
- 53% of children are considered "normal weight".

**WEIGHT CARE (AGES 6-17)**

- 55% of children were physically active for 60+ minutes every day.
- 55% of children consumed 5+ servings of fruits and vegetables per day.
- 55% of children were physically active for 60+ minutes every day.
- 55% of children were physically active for 60+ minutes every day.
