Highlights of our care:
- our infusion center nurses are all specially trained in the administration of chemotherapy
- we offer biotherapy for rheumatology conditions (e.g., Remicade, Actemra® and Humira®)
- diagnostic services are available for kids who need endocrine analysis
- we offer clinical trials as part of Children’s Oncology Group (COG)
- chemotherapeutic regimens — as well as other infusion therapies — are prepared by an on-site pediatric pharmacist
- a Child Life specialist can provide assistance to ease anxiety
- art therapy is offered weekly to patients during their treatments
- onsite emergency staff provides increased patient safety and monitoring

Highlights of our facility:
- open weekdays 8 a.m. till 5 p.m.
- 14 private infusion rooms
- each room has a TV that includes GetWell Town (a TV “network” that provides information based on your child’s age and medical condition)
- a rooftop garden is located near the infusion suite and it’s designed to provide respite and healing

The Infusion Center at Nemours Children’s Hospital offers advanced therapies and diagnostic care for children in Central Florida from newborns to age 18. Our specialized team cares for children who need infusion therapy for cancer and blood disorders, kidney disease, allergy or rheumatology conditions, infectious diseases, gastrointestinal disorders, nephrotic (kidney) disorders, immune system disorders, hormone deficiencies and more. Our staff is dedicated to ensuring that your child has the care they need, when they need it.

TO SCHEDULE AN APPOINTMENT, PLEASE CALL (407) 650-7715.
