

PerkinElmer Genetics eReports Search Screen

The portal has been designed to provide reports to Delaware health care facilities in the following views:

1. **Include Only Your Practice** – this is the default view which will automatically list released reports for your practice only.
2. **All Delaware Submitting Facilities** – by “unchecking” the box for “Include Only Your Practice” the system will search on the provided criteria in all Delaware submitting facilities.

Searching for patients can be accomplished in several ways:

Date Range – enter a Start Report Date and End Report Date

Filter Paper Number Search – if the user knows the filter paper number, it must be entered exactly for the search results to be returned.

Demographic Search – the user can enter any one or a combination of the following:

- Patient Last Name
- Patient Birth Date
- Patient Sex
- AKA Name

Using these techniques can help reduce the number of matching search results.
