2009 Annual Report to Donors
Our Thanks to You.
It is not how many years we live, but what we do with them. It is not what we receive, but what we give to others.

Evangeline Cory Booth
(1865—1950)
Fourth General of The Salvation Army

Cover: Ayla was born with neuroblastoma, the most common solid tumor in children. She was treated at Nemours/Alfred I. duPont Hospital for Children and is now a healthy toddler who is free of cancer.
August, 2010

Dear Friends:

Almost every day, I have the joy of learning about a gift that has been received to help children in the care of Nemours. My heart warms when I think of the impulse that moved a donor to make that commitment.

The Nemours Fund for Children’s Health accepts thousands of gifts each year—through the mail, over the internet, in a bequest or sometimes from the donor’s own hand when they come to visit us. Whether the contribution is small or significant, I know that it was given not only because that individual or organization cares, but also because they have confidence in the ability of Nemours to help restore and improve the health of children.

Support from donors helps Nemours improve patient care, provide facilities that are attractive and comfortable for children and families, advance life-saving biomedical research, and strengthen innovative prevention and education programs. And because of Mr. duPont’s Trust, 100 percent of each dollar contributed goes to help children.

Donors have many choices for giving to help children. Some contributors choose to support research to find better treatments for children with leukemia. Others direct their gift to a specific clinical area such as orthopedics or cardiac care, or to help improve facilities. Many donors just ask us to use their gift to meet the most urgent needs of children.

However you choose to give, whatever the amount you contribute, your gift is incredibly important to children and their families. They may never know your name—just that someone cared.

Sincerely,

Lori J. Counts, CFRE
Managing Director
Nemours Fund for Children’s Health
The Nemours Society was established to honor and recognize individuals whose annual contributions total $1,000 or more. Nemours is grateful to these generous donors for their leadership in philanthropy. The individuals listed below qualified for membership in The Nemours Society in 2009. Founding Partners—those who contributed $5,000 or more in the first year of The Nemours Society—are indicated by an asterisk.

Continuing A Legacy of Caring—David Lyons

David F. Lyons, Sr. became aware of the needs of others very early in life. His father, Garrett B. Lyons Sr., DDS, was the Director of the Children’s Dental Clinic at Nemours/Alfred I. duPont Hospital for Children. “I often went with Dad on Saturdays when he had an emergency patient. He had a special touch in caring for children with special needs,” he says.

After Dr. Lyons passed away in 2007, David began a successful fundraising effort to endow a Fellowship in Dentistry for Children with Special Needs at the Hospital in his memory. “There are so many children who cannot get the care they need in the community. I wanted to make sure a new generation of dentists could carry on Dad’s work,” he says.

David is the founder of Lyons Companies, Delaware’s largest privately held insurance brokerage and risk management firm. He serves on the boards of the Delaware Business Roundtable, Artisan’s Bank, and The Tatnall School.

David is also Chairman of the Board of the Delaware Council for Economic Education and Entrepreneurship at the Lerner School of Business at University of Delaware.

“Nemours/Alfred I. duPont Hospital for Children is one of the best in the country,” comments David. “It is having an amazing, even world-wide, impact on children’s health. When I played football in high school, I tore a ligament in my knee, had surgery at the Hospital and spent six months in a cast. Now, due to improvements in orthopedic care, kids with this type of injury can often walk out of the hospital after outpatient surgery.”

David and his wife Kate are long-time members of The Nemours Society and generous donors. In 2009, he received The Inspiration Award, given to an individual in the community who personifies philanthropy.

“I want to help people understand that it takes community investment to truly help Nemours succeed in transforming care for children,” he says.
Thanks to You

The Nemours Fund for Children’s Health gratefully acknowledges the support of our friends listed below. Their generosity allows Nemours to do even more for children—improving patient care, advancing research, and pursuing innovative programs. The donors listed below contributed between $100 and $999 between January 1 and December 31, 2009.

Our mission is to help children and their families while they are in the hospital through the many programs we offer. For 25 years, we have had the joy of making things just a little better for them during a difficult time.

Carole Shagrin
President, The Auxiliary of the Alfred I. duPont Hospital for Children
“What Nemours does is directly in line with our dual mission: meeting current needs of families whose children have cancer and funding pediatric cancer research. It is our privilege to partner with a world-class organization like Nemours.”

Jack W. Jones, President
Caitlin Robb Foundation
I have always felt it important to support the mission of the healthcare organizations where I have worked. My wife and I have contributed in each of the five years I have been with Nemours. We derive great personal satisfaction from helping the children who are served.

Eric E. Weis
Nemours Society Member
Friends Raise Funds for Nemours

Many friends in the community sponsor special events to benefit children being treated by Nemours. These events include golf, cheerleading and tennis tournaments, walks, runs, dinners and more. Touchingly, some fundraising efforts are led by children who just want to help other kids. Nemours Fund for Children’s Health is grateful for the generosity and kindness of these donors.

Casey at the Bat

After Rich and Franny Bertolino lost their eight-year-old daughter Casey to brain cancer, their niece and nephew, Lisa and Greg Sabatino, decided to sponsor a Wiffle® Ball tournament called “Casey at the Bat” in her memory to raise funds for cancer patients. In its first year, the event raised $9,000, attracting 400 participants playing in 32 teams. Rich and Franny have asked that the funds be used to provide amenities for children who are being treated for cancer at Nemours/Alfred I. duPont Hospital for Children.

Brendan Rush Golf Outing

Brendan Rush has type 1 diabetes. His father, Michael, sponsors an annual golf outing to raise funds to benefit diabetes research and education at Nemours/Alfred I. duPont Hospital for Children. Now in its third year, the golf outing has raised an amazing total of $41,000, including matching gifts from Tyco, Michael’s employer.

Golf Balls for a Good Cause

Brothers Braydin and Torin wanted to help their younger sister Karina, a cancer survivor, and other kids by raising money for cancer research. The boys collect stray golf balls from the outskirts of the course near their home and then clean and re-sell the balls to golfers. Braydin and Torin contributed $1,500 to the Nemours Center for Childhood Cancer Research in 2009.

The Nemours Fund for Children’s Health has made every effort to list donors accurately. If you notice any errors or omissions, please call us at 888-494-5251 and let us know so that our records may be corrected.
How Your Gift Helps Children

Your contribution has a direct impact on the health and well-being of children. In 2009, funds were distributed to improve care for our patients, underwrite life-saving biomedical research, provide supportive services for patients and their families, and educate our clinical staff to improve their knowledge and skills.

Here are just a few examples showing how gifts from donors like you help Nemours keep children healthy—both now and in the future:

- Renovations were made to hematology/oncology patient care areas at Nemours Children’s Clinic, Jacksonville, where children receive treatments for leukemia, sickle cell disease and hemophilia.

- Equipment was purchased for the Pediatric Auditory and Speech Sciences Center at Nemours/Alfred I. duPont Hospital for Children to help diagnose and treat children with conditions affecting their speech and hearing.

- The art therapy program at Nemours Children’s Clinic, Orlando, received funding to continue giving sick children an opportunity to express their feelings and creativity.

- Equipment and supplies were purchased to establish a Tumor Bank, which archives tissue samples from patients used to test new drugs for childhood cancers and other diseases.

- Pacemakers and other equipment for treating cardiac patients was acquired for the use of the Cardiac Intensive Care Unit of Nemours/Alfred I. duPont Hospital for Children. Many of the patients receiving care are newborn babies.

- A gift from the Auxiliary of the Alfred I. duPont Hospital for Children made it possible to purchase comfortable new furniture for the Post Anesthesia Care Unit waiting room.

- A curriculum was developed to help community organizations use Nemours BrightStart! knowledge and techniques to improve reading readiness of pre-school children who may be at risk for early reading problems.

- An art therapy program was established at Nemours Children’s Clinic, Pensacola, to help children being treated for serious illness express themselves through painting and drawing.
“The doctors at Nemours/Alfred I. duPont Hospital were amazing when our daughter was being treated for brain cancer. We wanted funds raised in her memory to help ease the pain of children being treated for cancer and help their parents cope.”

Franny Bertolino
Parent
Gifts From the Heart

Kids are still kids, even though they may be hospitalized or receiving outpatient treatments such as chemotherapy. Toys, board games, DVDs, books, craft supplies, video games, dolls, new stuffed animals and other items go a long way towards helping children stay happy and occupied during days, weeks or even months in the hospital.

Our Child Life Specialists help children cope with their hospital experience by using toys, games, crafts and activities to relieve stress and provide a distraction from medical tests and treatments.

Individuals, churches, schools, corporations, civic associations and other groups often donate these items. We are most grateful for their thoughtfulness and generosity.

Visit Nemours.org/give to see a complete list of items appropriate for donation to Nemours/Alfred I. duPont Hospital for Children in Wilmington, Delaware or Nemours Children’s Clinic locations in Florida.

Please direct questions to the Nemours Fund for Children’s Health at 302-651-4828 or giving@nemours.org.

The Auxiliary of the Alfred I. duPont Hospital for Children

Since its founding in 1985, the Auxiliary of the Alfred I. duPont Hospital for Children has made a significant impact on the well-being of families and children through their many gifts of time and resources.

The Auxiliary, 100 members strong, operates The Red Balloon Gift Shop, which offers a wealth of gifts, toys, games and other items. All proceeds from the Shop, a favorite stop for families and Nemours staff alike, are donated to the Hospital, as are funds raised from book sales, fudge sales and other events.

Auxilians staff the Hospital’s Family Resource Center, Admissions Service and a twice-daily Hospitality Hour that offers complimentary refreshments to families. Children become more familiar with the hospital through the Auxiliary’s Hospital Awareness Program.

In the last 25 years, Auxiliary members have contributed more than 225,000 hours of service and $600,000 to meet the needs of children and families, such as new furniture for waiting areas or a generous gift to help build the Family Resource Center. Our Auxilians are also very proud of the Financial Assistance Fund, which offers help to families with expenses such as transportation, utility bills or other urgent needs during their child's illness and hospitalization.

Global pharmaceutical company AstraZeneca is more than just a close neighbor of Nemours/Alfred I. duPont Hospital in Wilmington, Delaware. It is a generous and involved friend. The company’s transformational $1 million gift in 2009 to support the hospital’s planned expansion is the latest example of its partnership with Nemours.

“The Hospital is such an important resource for families,” says Rich Fante, President US and RVP North America for AstraZeneca. As a parent of three-year-old twins, I can tell you that it is a great comfort to know that world-class medical treatment is available so close to home.”

The company has been a generous sponsor of A Night at Nemours for all five years the black-tie event has been held. Through AstraZeneca’s Healthcare Heroes program, volunteers presented “Shadow Buddies” dolls to the Hospital’s Child Life program. These dolls help children understand their medical conditions and provide a special friend.

In 2009, a gift from AstraZeneca made possible The Body Theater, a video display located in a busy waiting area of the hospital. It shows three hours of engaging child-oriented content including video, games, quizzes and mystery pictures in both English and Spanish to help children and their families gain a better understanding of asthma.

Nemours Fund for Children’s Health is grateful to AstraZeneca and its employees for caring so much about children and their health.

Many Ways to Help

- Annual gifts from local, regional and national businesses and corporations provide resources to support children’s health.
- Corporate matching gift programs maximize individual contributions.
- Corporate support of special projects and capital needs is welcomed.
- Sponsorship underwrites A Night at Nemours (Delaware Valley), A Night with Nemours (Jacksonville, Florida), our golf tournaments and other special events.
- Volunteering at Nemours/Alfred I. duPont Hospital for Children or Nemours Children’s Clinic offers opportunities for employees of a company to participate in a very personal way.
- In-kind contributions provide resources for Child Life and other programs to benefit children.

For information about corporate giving and sponsorship of special events, contact Marie Vacca at 302-651-4416 or mvacca@nemours.org.
Our Corporate Partners

Sodexo

Sodexo, Inc. is the leading provider of integrated food and facilities management services in the United States, Canada, and Mexico—serving 10 million customers in 6,000 locations every day. The company has been the Platinum Sponsor of A Night at Nemours, our black-tie gala, for the past three years.

“When Sodexo occupies the center table at A Night at Nemours, we are really celebrating the successes of the past year by health care professionals at Nemours and all they do for children,” says Dan Ball, Senior Vice President of Operations for Sodexo Health Care.

Sodexo provides five core services at Nemours/Alfred I. duPont Hospital for Children, including food and nutrition, housekeeping, environmental services, engineering and plant operations, and laundry, all of which are important to providing a satisfying experience for patients, families, and Nemours Associates.

“When I walk through the Hospital, I see so many kids who are in need of care,” says Mr. Ball. “Their future would not be very bright without what Nemours provides. Sodexo is pleased to support the work of Nemours/Alfred I. duPont Hospital for Children because it aligns so closely with our company’s mission.”

Skanska

Skanska is a leading international project development and construction company that develops offices, homes and public-private partnership projects, including hospitals, educational facilities, bridges, roadways, office buildings, hotels, industrial plants and much more.

The new Nemours Children’s Hospital now rising in Lake Nona, Florida, has Skanska Building USA as its construction management firm. “We are very excited about working with Nemours. Its culture is very similar to Skanska’s and our goals are aligned,” says Fred Hames, Senior Vice President.

“For us, it’s more than just putting up a building. We see the hospital as a tool for physicians, nurses and other health professionals to better do their job of providing care for children,” says Mr. Hames.

Skanska has been a generous friend to Nemours, providing sponsorship for both of our black-tie gala events. A Night at Nemours in Wilmington, Delaware and A Night with Nemours in Jacksonville, Florida. In the fall of 2010, Skanska will sponsor a golf tournament at the Lake Nona Country Club to benefit the new Nemours Children’s Hospital now under construction and due to open in 2012.

“Skanska is proud to be part of a team effort to provide outstanding health care facilities for Nemours,” says Mr. Hames. “We see tremendous potential in what this organization does for children.”
By his freshman year in high school, David Hancox, RN, BSN, knew what he wanted to do with his life. “That was the year my dad was diagnosed with colon cancer. I saw the importance of good nursing care and it really grew on me,” he remembers.

David, now a nurse manager of a medical/surgical unit at Nemours/Alfred I. duPont Hospital for Children, and his wife Katie, a teacher, are the parents of two young boys—Luke (4) and Liam (2). Unfortunately, David lost both his father and mother to cancer well before their time.

“These events got me thinking about our plans for the future much earlier in life than most people,” he says. “Katie and I both work with children, so arranging for a bequest to Nemours was a very simple decision. It was the right thing to do.”

David, a nurse with Nemours for eleven years, grew up with a tradition of giving back. His parents had several charitable causes to which they were devoted.

“In nursing, I really found my niche in life,” says David. “Beyond the bedside care we provide, nurses have a special opportunity to build relationships with patients and families—whether they are here for a few days or return many times because of a chronic condition. We do everything it takes to meet their needs and provide the best care possible.”

“In my role as nurse manager, I am able to effect positive change for children by helping my staff to deliver excellent care and create bonds with patient families,” comments David.

“David and I are already teaching our boys to be aware that not everyone is as fortunate as they are,” says Katie. “We want the impulse to help others to be inside them.”

“When I reflect on my own life, I realize how lucky I am to do this work,” says David. “I am grateful each day for what I have.”
There has never been a better time to place your trust in Nemours to give children a healthier future. With a planned gift, such as a bequest, you help to ensure that the best care, the most advanced research and innovative health and education programs will benefit children even beyond your own lifetime.

Now there’s an easy way to explore your options for a legacy gift. Our new planned giving web pages (www.nemours.org/planyourlegacy) offer a wealth of information about bequests, trusts and other types of planned gifts. There are even interactive features such as a gift calculator. Many gift plans offer significant tax benefits for you and for your loved ones.

When you inform the Nemours Fund for Children’s Health of your plans to leave a legacy for children, you will become a member of The Carillon Society and receive a special recognition gift.

To learn more, or to request a copy of our Guide to Planned Giving, contact Amy Bielicki at 302-651-4298 or abielick@nemours.org.

The Carillon Society

The Carillon Society recognizes donors who have made a planned gift to benefit children. The Carillon, a landmark on the campus of the Nemours/Alfred I. duPont Hospital for Children in Wilmington, Delaware, is the final resting place of Alfred and Jessie Ball duPont, as well as Edward Ball, Jessie’s brother and Alfred’s trusted business partner.

Members of The Carillon Society are:

Della R. Ashton
Leonard L. & Nancy F. Berry
Hugh Durden
Mr. & Mrs. David Hancox
Robison D. Harley, MD, PhD^
Richard Tuttle Hykes
John & Carolyn Lord
Carolyn Ruth Ralph^  
Anne J. and Fredric S. Wright

^deceased
In the beautiful, light-filled Cardiac Intensive Care Unit at Nemours/Alfred I. duPont Hospital for Children, tiny newborns with serious heart defects and older children with cardiac disease are cared for by a dedicated staff of physicians, surgeons, nurses and respiratory therapists.

In 2009, life-saving equipment such as temporary pacemakers and an airway cart were purchased for the Cardiac Intensive Care Unit with funds contributed by our donors.

Michele Derderian, RN, cares for patients in the Unit. “Sometimes children develop a heart rhythm abnormality during surgery. A temporary pacemaker helps them. If the problem doesn’t resolve on its own, a permanent pacemaker may be implanted.”

“Pacemakers are also used for older children who have cardiac arrhythmias due to illness or prior surgeries,” says Michele. “We are grateful to have these additional pacemakers available, especially the ones that help both sides of the heart pump.”

“I love what we do,” comments Michele. “Kids can look forward to a more normal childhood.”

Respiratory therapist Denise Sebzda also works with young patients in the Cardiac Intensive Care Unit. She frequently uses a new airway cart made possible by donor support.

“In an emergency situation, it’s important to have everything right there on the cart, so you are not hunting for equipment or supplies when every moment counts,” she says.

“Here is an good example of how the airway cart is used: a baby girl had a breathing tube put in during surgery, but when the tube was later removed she struggled to breathe. We were able to put in a new tube at the bedside. Everything we needed was right on the cart.”

“The airway cart has a fiberoptic light that allows us to better visualize the airway, making the whole process easier,” says Denise. “It helps us bring these children through life-threatening crises.”

Your Gift Saves Lives
Help Children Through Your Gift

Contributions to the Nemours Fund for Children’s Health help to improve patient care, advance life-saving research, build new facilities and renovate older ones and provide resources for health promotion, prevention and education programs. While contributions to meet the most urgent needs are always welcome, you may restrict your gift to any Nemours program, initiative or location.

Seven easy ways to give:

- Visit www.nemours.org/give to make an online contribution. It’s easy and secure.
- Send your gift by mail (address below).
- Honor or remember a loved one or friend with a gift or express gratitude to a Nemours doctor, nurse or other health professional. The individual will be notified of your generosity (but not the amount).
- Donate stock or other property. Please call 888-494-5251 and we’ll be glad to help you make arrangements.
- Request Electronic Funds Transfer to have a monthly contribution charged to your credit card. Call 888-494-5251 for more information.
- Create a personal legacy by remembering Nemours in your will (for more information, visit www.nemours.org/planyourlegacy.)
- Double or even triple your contribution through your company’s matching gift program. Please check with your employer for information.
