2012 Annual Report to Donors
Our Thanks to You
I expect to pass through this world but once; any good thing therefore that I can do, or any kindness that I can show to any fellow creature, let me do it now; let me not defer or neglect it, for I shall not pass this way again.

Étienne de Grellet du Mabillier
French Quaker Missionary
1773—1855

Cover: Tiny Natalia was born prematurely and is receiving some help from Nemours/Alfred I. duPont Hospital for Children to make sure she gets enough nutrition to help her grow up healthy and strong.
March 2013

Dear Friends,

Our amazing donors are doing extraordinary things to help sick and injured children in our community. Each day, we see evidence of their compassion and generosity.

In 2012, a total of nearly $9,060,000 was contributed by 4,667 donors—an increase of 51 percent over the previous year. This amount includes the largest single gift ever received by Nemours—a three million dollar contribution to support the expansion of Nemours/Alfred I. duPont Hospital for Children and the Shands/MacEwen Endowed Chair of Orthopaedic Surgery.

Some donors want to support specific clinical departments like orthopedics, cardiac care or oncology. Others give to underwrite programs that make life a little easier for children who are receiving treatment from Nemours—Child Life, art and music therapies, and palliative care. Many contributors look to a healthier future by supporting life-saving research into the most complex diseases of childhood.

The majority of our donors ask us to use their contribution to meet the most urgent needs of children and families. Whether your gift is large, small or somewhere in between, we thank you for your generosity and for caring about children.

Your gift helps to save the lives of our most vulnerable children and gives them the promise of a healthier tomorrow. We are so grateful.

Sincerely,

Lori J. Counts, CRFE
Managing Director
Nemours Fund for Children’s Health
The Nemours Fund for Children’s Health is grateful to the following individuals for their generosity and vision. Our recognition of The Nemours Society members listed below, some of whom have made multi-year commitments, is based on cash and pledge payments received annually.

Nemours/Alfred I. duPont Hospital for Children has been an important part of Will and Martha Mackenzie’s lives since 1986. “It was the top place to train in pediatric orthopedics,” says Dr. Mackenzie, who served a fellowship there. “Both of us have always believed in the mission of Nemours and the work it is doing.”

“Philanthropy has changed Nemours in a very positive way,” says Dr. Mackenzie, Chairman of the Hospital’s Department of Orthopedics and a world-renowned expert in skeletal dysplasias. “For example, two very generous grants from the Swank Foundation have been transformational. We are building a relational database that will result in a much better experience for children and families and have started a muscle research program that has the potential to be revolutionary.”

Recipients of The Inspiration Award in 2012, both of the Mackenzies have been involved in fundraising activities. Martha has been intensely involved in the Hospital’s annual gala, which raises approximately $215,000 each year. Dr. Mackenzie has assisted in the campaign to support the Hospital’s expansion. “I enjoy being a part of these gift requests. We have dramatic opportunities for the future.”

Dr. and Mrs. Mackenzie, parents of three grown sons, are excited about the Hospital’s expansion and have supported it with a generous commitment. “The orthopedic unit will have single-patient rooms, some of which will be adapted for children with short stature and other special needs,” says Dr. Mackenzie. “When Will was a fellow, we stayed in a house on the Hospital grounds. In the evening, we would take the boys on walks through the grounds of the Mansion & Gardens and look at the stars. I’ve always been happy to be part of the Nemours family,” says Martha.
A Philanthropic Tradition

John S. Lord, recipient of the 2012 Inspiration Award for Florida, credits his parents for instilling in him a spirit of generosity. “We didn’t have much when I was a kid, but my mom and dad always found a way to give. I hope that I have passed that on to my children and that they will in turn teach their children.”

Mr. Lord, who serves as Chairman of the Board of Nemours, has played an active part in the community since he was a young man starting out in banking. “The ability to raise funds is about the relationships you build with people. When you have that credibility, the prospect becomes convinced that the organization is worthy of their investment. I have never asked someone to contribute to a cause unless I have already supported it with my own time and treasure.”

“Philanthropy allows Nemours to do things for very sick kids, regardless of the family’s ability to pay,” says Mr. Lord. “That’s why we exist. There is an unlimited need for quality clinical care and leading-edge, life-saving research by our scientists and physicians, so community support is essential.”

“Nemours is different. For example, in our new hospital in Orlando and in the expansion of duPont Hospital in Wilmington, we have gone to great expense to have each room be identical. This is a safety issue for our patients—the clinician can always find what they need in the same place every time,” he says.

“Because of this intense focus on excellence in patient care, I can honestly tell people that any child that comes to Nemours will get exactly the same quality of care that my own grandchildren would receive,” concludes Mr. Lord.

Jessie Ball duPont Society

The Nemours Fund for Children’s Health honors its most generous friends through membership in the Jessie Ball duPont Society, which recognizes individuals whose cumulative gifts to Nemours total between $100,000 and $999,000.

Jessie Ball duPont was an educated and astute businesswoman. Because of Mr. duPont’s profound deafness, she often assisted her husband in his business dealings. After Mr. duPont’s death in 1935, Mrs. duPont quickly set about planning for a 60-bed orthopedic hospital on the grounds of Nemours, their Wilmington, Delaware estate. The small hospital, precursor to Nemours/Alfred I. duPont Hospital for Children, opened just five years later.

Our first experience with Nemours took place years ago, when we brought our son, now in his twenties, there for care a couple of times,” remembers Hinton J. Lucas, a member of the Delaware Board of Managers and Vice President and Assistant General Counsel for the DuPont company in Wilmington, Delaware. “It wasn’t until later on that I became aware of everything Nemours/Alfred I. duPont Hospital does for children in our community.”

At the urging of Tom Ferry, former CEO of the Hospital, and a fellow board member of a community organization, Mr. Lucas became a member of the Delaware Board of Managers, which serves in an advisory and oversight role to management of Nemours/Alfred I. duPont Hospital for Children, helps set policy and assists with physician credentialing. “My wife had been a dental hygienist with Nemours SeniorCare, which provides health services for low-income seniors in Delaware. That was another connection to Nemours,” he remembers.

“I was delighted to be asked to serve as Chairman of the Business and Foundation Division of the campaign for the expansion of the Hospital,” says Mr. Lucas. “We invited some outstanding individuals to serve on this committee—people who could help us identify corporate and foundation prospects and then knock on and open doors.”

“This activity provided a marvelous opportunity for us to educate people in the community about Nemours—its history, how it is funded and how superbly it is run,” comments Mr. Lucas. “We have received a very positive response.”

“That process was continued with a breakfast to which corporate leaders in Wilmington were invited to hear about the Hospital’s expansion,” says Mr. Lucas. “Ellen Kullman, the CEO of the DuPont company, spoke about how it would benefit our employees and the community at large, as well as talking about what the Hospital has meant to her as a parent.

“The decision by the DuPont company to make a gift of $2.5M came quite easily because of how many people the expansion will eventually touch,” says Mr. Lucas.

Mr. Lucas and his wife Peggie, members of The Nemours Society, have made their own personal contribution to the campaign. “We felt very strongly about the importance of this project. It will strengthen the reputation of Nemours, increase its technical capabilities and provide a much better experience for children and families,” he says.
The Nemours Fund for Children’s Health is pleased to recognize those who help Nemours keep its promise to children and families. Their philanthropic investment supports patient care, advances life-saving biomedical research, provides comfortable environments for patients and their families, promotes healthy living and provides health education. The donors listed below contributed between $100 and $999 from January 1, 2012 to December 31, 2012.

Through the Jack Langseder ForeverSTRONG Foundation at the Delaware Community Foundation, the Langseder family of Hockessin, Delaware donated $25,000 to support research in Ewing’s sarcoma at the Nemours Center for Cancer and Blood Disorders. Their son and brother Jack participated in the clinical trial of a drug first validated at Nemours. The gift will support the next phase of clinical testing for this drug. E. Anders Kolb, MD, Director of the Center, accepted the gift, which was made in memory of Jack.

Nemours enjoys the strong philanthropic support of its employees across its 28 locations in Delaware, Pennsylvania, New Jersey, Florida, and Washington, DC. More than 1,700 Nemours Associates contributed $1,342,721 in cash and pledges during 2012, supporting facility expansion, clinical care, prevention and education initiatives and life-saving biomedical research. Shown above is Orlando Associate Winnie Forbes staffing a Country Fair event to encourage Associates to make a gift.

Jeff Martino of Cheer for Charity presents a check for $35,000 to Glenn Stryjewski, MD, of the Pediatric Intensive Care Unit (PICU) on left and Kevin Churchwell, CEO of Nemours/Alfred I. duPont Hospital for Children, on right. The funds were raised through the annual Cheer for Charity cheerleading tournament to help fulfill a pledge of $250,000 for a new PICU in the expansion of the hospital. The annual event, which attracts dozens of cheerleading teams from the mid-Atlantic region, has raised more than $170,000 for the hospital since 2006.
The Delaware Community Foundation made its first-ever grant to Nemours/Alfred I. duPont Hospital for Children in 2012, a gift of $10,000 to support the new Emergency Department (ED) in the Hospital’s expansion. With an annual visit volume that has grown from 20,000 to nearly 52,000, the ED will expand from 29 to 44 beds and have a design that supports efficiency and rapid decision-making. The ED will include a 9-bed Observation Unit and a 9-bed FastTrack area for kids who have minor illnesses and injuries.

The bright eyes of children in Jacksonville are seeing more clearly as a result of a $10,000 grant from Vistakon, a division of Johnson & Johnson, to benefit Nemours Children’s Clinic, Jacksonville. The gift is being used to purchase a Spot Screener, a sophisticated technology that quickly detects many eye conditions. Since 2009, Vistakon has contributed $35,000 in support of vision care for children at Nemours. Above, ophthalmologist Merrill Stass-Isern, MD works with a young patient.
For Nemours/Alfred I. duPont Hospital for Children, the popular iPad means more than apps and entertainment. This easy-to-use technology is being employed throughout the Hospital for patient care. More than two dozen iPads were purchased with contributed funds in 2012.

Above, children receiving chemotherapy and other treatments in the outpatient infusion room use iPads to pass the time during infusions to access movies, games and the GetWellNetwork, which helps young patients enjoy the best in educational, age-relevant content and entertainment that meets their unique needs.

In the Blood and Bone Marrow Transplant unit of Nemours Center for Cancer and Blood Disorders, iPads are used in family-centered rounds and help to facilitate bedside teaching. Nemours’ award-winning Electronic Health Record can be brought right to the bedside to help patients and parents better understand imaging and lab results related to the transplant.

Other iPads are being used in the Hospital’s Newborn Intensive Care Unit by neonatologists caring for babies who have been transferred from the hospital where they were born to receive care for complex medical conditions.

The Hospital’s Therapy and Rehabilitation Service also makes use of iPads to document patient treatment and massage therapy sessions as they work to help young patients recover from serious illness or injury.

The Nemours Critical Care Transport Team uses their iPads to help physicians visualize and evaluate critically ill and injured patients while they are en route to the Hospital. Vital signs and other information received from the Team helps physicians and nurses plan what treatments will be needed once the patient arrives.

In 2012, Nemours Kids Transport ambulances brought nearly 2,400 sick and injured children from 30 area hospitals to Nemours/Alfred I. duPont Hospital for Children, providing expert medical care while en route to our emergency department.
How Your Gift Helped Kids

Patient Care and Services

Contributed funds purchased equipment and supplies for patient care and supported many services that help kids be kids even though they are being treated for or recovering from serious illness.

- Therapy equipment for children recovering from illness or injury through rehabilitation services
- Beads of Courage to recognize children with cancer for each test or treatment completed
- Kitchen supplies, electronics and toys, craft supplies for Child Life programs
- Continuation of the Art Therapy program at Nemours Children’s Hospital, Orlando
- New furniture for the Hematology/Oncology waiting room and flat screen televisions for the therapy gym at Nemours/Alfred I. duPont Hospital for Children
- Supplies for our Beach Ball Prom for teen cancer patients in the Delaware Valley

Patient and Professional Education

Education for both our patients and health professionals is critical to achieving excellent outcomes in patient care.

- Reading readiness materials for Nemours BrightStart! screenings in Hospital School Program
- Nursing scholarship for Nemours Children’s Clinic, Jacksonville
- Camp for Delaware Valley cochlear implant recipients
- Expansion of training for Healing Touch program at Nemours/Alfred I. duPont Hospital for Children
- Video for education of cystic fibrosis patients
- Support group for siblings of oncology patients

Capital Projects

Nemours is building for a healthier future. The new Nemours Children’s Hospital in Orlando opened to patients in 2012 and Nemours/Alfred I. duPont Hospital for Children’s expansion will be complete by late 2014.

- Construction, design and furniture for roof garden outside surgical waiting area at Nemours Children’s Hospital, Orlando
- Capital expenses for the expansion of Nemours/Alfred I. duPont Hospital for Children, to open in 2014

Biomedical Research

Leading edge research is underway across Nemours, with the goal of bringing the latest advances into clinical care. Research initiatives include those to investigate:

- Asthma
- Cerebral palsy
- Cystic fibrosis
- Ewing’s sarcoma and leukemia
- Neuro-orthopedic conditions
- Sickle cell disease
Spirit Halloween stores in Delaware offered a 10 percent discount to shoppers. They also donated 10 percent of the purchase price to support the Child Life program at Nemours/Alfred I. duPont Hospital for Children. Spirit Halloween is just one of many retailers in the communities served by Nemours to offer discounts and special promotions to benefit our hospitals and patient programs. Shown above, a beautiful princess enjoys a Halloween party sponsored by Spirit Halloween.

The Nemours Fund for Children’s Health has made every effort to list donors accurately. If you notice an error or omission, please contact us at 888-494-5251 or at giving@nemours.org so that our records may be corrected.

Families often have a baby shower to welcome a new arrival and the Nemours family is no exception. Volunteers (L to R) Dixie Keller, Erin Hyltin and Sharon Lyons invited friends from their Lake Nona neighborhood to a special Birthday Shower at Sharon’s home to benefit the brand-new Nemours Children’s Hospital in Orlando, Florida.

Instead of bringing gifts, guests chose from an array of items to be used at the hospital and made contributions to pay for them. These included soothing sound machines, iPads and iTouches, portable DVD players, sensory motor kits for children with autism, an interactive tactile wall, child-sized motorized cars, car seats, a vintage circus cart popcorn maker for movie nights, Blu-Ray players and a selection of movies, and a kitchen cart for use in rehabilitation therapy. More than $12,000 was given by guests attending the event.

Sixth-grade students at Providence Creek Academy, in Clayton, Delaware agreed that their bi-annual Service Learning Day should raise money to help kids at Nemours/Alfred I. duPont Hospital for Children. They planned a BOWL-A-THON and recruited sponsors that would pay them “Pennies for Points.” Bowlerama of New Castle, Delaware offered the school a great deal on a fun-filled day of bowling, and more than $800 was raised.

The Thomas P. Ferry Palliative Care Program at Nemours/Alfred I. duPont Hospital for Children, named for the Hospital’s longtime CEO, received a gift of $5,000 from Richard Hykes, who was impressed by the one-on-one attention children receive. The program focuses on relieving pain and enhancing the quality of life of children with severe, life-limiting or life-threatening conditions. Mr. Hykes is a member of both The Nemours Society and The Carillon Society. He is a dedicated volunteer in the Hospital’s radiology department. Although he supports many causes, Mr. Hykes declares that “Nemours is my favorite.”

Your Legacy for Children

You can help support our children’s health mission by including Nemours in your estate plans.

There are many ways to plan a deferred gift to Nemours—often without impacting current income—as well as strategies that offer significant tax advantages while providing for the needs of your loved ones.

To assist you with this important decision, a wealth of information is available on our interactive planned giving web pages at Nemours.org/give or you may contact Mary Hopkins at 302-298-4401 or mary.hopkins@nemours.org.

The Carillon Society recognizes donors who have planned to make a deferred gift to Nemours through their will or other estate plans for the benefit of children’s health. The Carillon is the final resting place of Alfred and Jessie duPont and Ed Ball, Jessie’s brother and Alfred’s trusted business manager.

“Love cures people—both the ones who give it and the ones who receive it.”

Karl A. Menninger, MD (1893—1990) Psychiatrist and Author

The second annual Help Our Kids Radiothon to benefit Nemours/Alfred I. duPont Hospital for Children was a tremendous success. Six Delmarva Broadcasting Company stations broadcast from the hospital from 6 a.m. to 6 p.m. on two days, interviewing patients, parents, physicians and sponsors. More than 150 volunteers from local companies, the hospital Auxiliary, as well as Nemours Associates, staffed the phone bank, accepting nearly 725 contributions totaling $122,000. Domino’s Pizza, Marble Slab Creamery, and Schell Brothers were among the companies that presented checks at the event.
Your Gift Helps and Heals Children

Contributions to Nemours from donors like you help to improve clinical care for children, advance life-saving research, build new facilities and renovate older ones and provide resources for health promotion, prevention and education programs. While contributions to meet the most urgent needs are always welcome, you may restrict your gift to any Nemours program, initiative or location.

Seven easy ways to give:

1. Visit givenow.nemours.org to make a secure online contribution.
2. Send your gift by mail (address below).
3. Honor or remember a loved one or friend with a gift or express gratitude to a Nemours health care professional. The individual will be notified of your generosity (but not the amount).
4. Donate stock or other property. Please call 888-494-5251 and we will help you make arrangements.
5. Request Electronic Funds Transfer to have a monthly contribution charged to your credit card. Call 888-494-5251 for information.
6. Create a personal legacy by remembering Nemours in your will. Visit our planned giving web pages at Nemours.org/give.
7. Double or even triple your contribution through your company’s matching gift program. Visit matchinggifts.com/nemours and use our Matching Gift Lookup Tool to see if your company participates.
