Dear Friends,

Thank you for your support of Nemours Children’s Health System. In 2015, you helped us raise more than $12 million from more than 6,500 donors in the Delaware Valley and Florida.

We receive philanthropic donations from community members, Associates, corporations, foundations and community organizations. Every donated dollar helps our kids by improving patient care and services, acquiring capital equipment, educating patients and practitioners, and conducting medical research. (See the centerspread for more information.)

Together, we are changing children’s lives. From premature babies fighting for each breath to toddlers, children and adolescents struggling with diagnoses ranging from cerebral palsy to cancer — Nemours is here to help. Our world-class physicians and their medical staff live the Nemours promise to treat each child as their own by providing the highest quality care and helping every child reach their full potential.

Here at Nemours, we love what we do. We are so grateful for your support as we continue to help the children and families who need us.

Warmly,

Lori J. Counts, CFRE
Operational Vice President
Nemours Fund for Children’s Health

(Pictured on the cover: Cruz, a patient at Nemours Children’s Hospital in Orlando, Fla.)
Thank You to Our Donors

**THE ED BALL SOCIETY**

Individual donors who give $25,000 or more in one year are eligible for membership in *The Ed Ball Society*.

Annual Report to Donors 2
A Passion for Helping Children with Autism

The Nemours Fund for Children’s Health is proud to have honored Susan and Dan Katzin with the 2015 Inspiration Award. This award is given to Nemours Society members who personify philanthropy, generosity, a commitment to the community and a willingness to approach others to join them in giving.

In 2015, the Katzins pledged $4 million toward the development of a comprehensive clinical and research program for children with autism and other neurological disorders at Nemours/Alfred I. duPont Hospital for Children.

The expanded program will improve access to diagnosis and treatment for children with autism, facilitate the creation of an autism-friendly environment, and introduce a PET/MRI Center, which will reduce radiation exposure and help neurologists offer state-of-the-art care.

The Katzins’ generous donation aided in the recruitment of Dr. Diane C. Chugani, a renowned autism researcher, and Dr. Harry T. Chugani, an internationally prominent neurologist and epilepsy specialist.

“We have a child on the autism spectrum, so we know the challenges that families face, and we felt we had to respond. We wholeheartedly believe this program will provide urgently needed resources.”

Recognizing the need for additional funding, the Katzins offered a challenge gift. They will contribute an additional one-million-dollar gift when the Nemours Fund for Children’s Health raises $5 million toward the overall program. For more information on how you can help, contact the Nemours Fund for Children’s Health at (302) 651-4828.

From the time Dr. Bob Wilson went to medical school, he has had a soft heart for children. He says, “Children are my business; my only business.”

Dr. Wilson, affectionately called “Dr. Bob,” worked at Sacred Heart Hospital and Florida State University College of Medicine for 30 years. He witnessed the evolution of pediatric specialty care in the Pensacola area after the Nemours Children’s Clinic opened in 1995.

He has served on the Florida Board of Managers for eight years and he was involved in the opening of Nemours Children’s Hospital in Orlando. Dr. Wilson said he is proud to support Nemours with Charlie Faye, his wife of 59 years. “The only thing we really keep is what we give away — be it service (time and talent) or treasure,” he said.

Dr. Bob Wilson (fifth from the left) and his wife, Charlie Faye (to his left), with their extended family.

The Nemours Fund for Children’s Health honors its most generous friends through membership in the Jessie Ball duPont Society, which recognizes individuals whose cumulative gifts to Nemours total more than $100,000. Mrs. duPont, the widow of Alfred I. duPont, brought her husband’s vision of better health for children into reality in 1940.

Our recognition of donors is based on cash and pledge payments received annually. Some donors have made multi-year commitments. The Nemours Fund for Children’s Health has made every effort to list donors accurately. If you notice an error or omission, please contact us at (888) 494-5251 or giving@nemours.org so that our records may be corrected.

Dr. Billie Winegard joined Nemours in 2015 as the first external fellow for the accredited Hospice and Palliative Medicine physician fellowship at Nemours/Alfred I. duPont Hospital for Children. Dr. Winegard’s position is supported by a gift from Trudie Thompson. The palliative care program, directed by Dr. Elissa Miller, is a multidisciplinary team that aims to enhance quality of life for seriously ill patients and their families. Nemours is honored to be helping to train the next generation of palliative care physicians with this fellowship, and is very grateful for the philanthropic support that makes it possible.

Capital Projects and Equipment

*Funded by Philanthropy*

- Acquired a new transport Isolette® for Nemours/Alfred I. duPont Hospital for Children to help the Nemours team provide intensive care to an infant while on the move.

- Purchased a cryoablation unit for Nemours Children’s Hospital in Orlando, Fla., to ablate/destroy childhood tumors.

- Created the All Abilities Playground at duPont Hospital for Children, which improves accessibility for children and allows for integrated play.

*Gianna and Daneyah on the All Abilities Playground in Wilmington, Del.*
**Patient Care and Services**  
*Funded by Philanthropy*

- Supported Child Life and palliative care services, which provide invaluable support and education to children and families.

- Provided “comfort kits” to newly diagnosed oncology patients in Pensacola, Fla. The kits include materials to make difficult appointments easier as well as “fever magnets” that detail exactly when and how to respond to a fever.

- Funded the cochlear implant summer camp in Jacksonville, Fla. The camp educates and connects children who have hearing loss who might otherwise feel isolated.

*Garrett, a Nemours audiology patient*

**Biomedical and Clinical Research**  
*Funded by Philanthropy*

- Conducted leukemia research to better understand the disease and develop treatments more appropriate for children that will destroy cancer cells while causing fewer side effects.

- Identifying which children with sickle cell disease are at risk for chronic kidney disease, allowing for better prevention of the secondary condition.

- Investigated Type 2 diabetes to determine if siblings of affected children have a genetic predisposition to the disease.

*Johanna, a Nemours sickle cell patient*

**Patient and Professional Education**  
*Funded by Philanthropy*

- Held an audiology conference for multidisciplinary professionals and impacted families to learn about the psychosocial effects of hearing loss on children.

- Continued the trauma injury prevention program in Delaware to help parents make informed decisions about safety equipment, from appropriate helmets to car seats.

- Coordinated obesity prevention workshops in Jacksonville, Fla. to help young adults avoid the health effects that come with excess weight.

*Cruz at Nemours Children’s Hospital in Orlando, Fla.*
Corporations, Foundations & Community Organizations

The donors listed below made donations of $1,000 or more in 2015.

When Microsoft had its annual conference in Orlando in July 2015, the employees wanted to help the children at Nemours Children’s Hospital. Collectively, they raised $30,000 to purchase 50 Xbox units, and they utilized a volunteer day to install them in patient rooms and gathering places throughout the hospital. The game systems provide a welcome distraction for kids while they are in the hospital.
Mercedes-Benz of Wilmington, Delaware, is a generous new partner of Nemours. They ran a give-back program in August 2015, during which they donated $150 to Nemours/Alfred I. duPont Hospital for Children for every car leased or sold. They raised a total of $18,450, which was counted toward the Help Our Kids Radiothon total.
The Child Cancer Fund (CCF) was started by a group of parents whose children had been diagnosed with cancer. CCF provides comprehensive support for oncology families, which includes supporting a Child Life Specialist, Joli Craver, who focuses on oncology patients at Nemours Children’s Specialty Care, Jacksonville. Craver uses play and diversionary activities to help children with the anxiety and fear they often have about needles, IV poles and chemotherapy transfusions.

She also spends time with the children when their parents are talking with the doctors. “Someone needs to be with the kids, so the parents can focus on the important decisions they have to make,” says Carla Montgomery, CCF executive director. “These children are fighting for their lives, but they still need to play and be kids.”

The Tom Coughlin Jay Fund provides financial, emotional and practical support to families tackling childhood cancer.

A cancer diagnosis means spending weeks on end at the hospital. Often, one parent needs to stop working to care for the child full time. The Jay Fund helps families pay bills including their mortgage and utility bills and provides gas and grocery cards.

“We want to be there for these families, so they can be there for their children,” says founder Coach Coughlin. “We hope to help meet the short-term financial needs of the family, as well as provide long-term support through recovery and beyond.”

The Jay Fund helps families pay bills including their mortgage and utility bills and provides gas and grocery cards.

“We want to be there for these families, so they can be there for their children,” says founder Coach Coughlin. “We hope to help meet the short-term financial needs of the family, as well as provide long-term support through recovery and beyond.”

Blake, a Nemours patient, with Joli Craver. Supporting Craver’s position is just one way that the CFF supports oncology patients at Nemours.

Ansley, pediatric cancer patient, shares a moment with Judy and Tom Coughlin.
A Fun Run to Support Child Life

The BACON Foundation, established by Dr. Michael and Janna Oslund, holds a unique annual 5K called the Lake Nona Pig Run. The course features a “Pig Pen” halfway through the run for participants to eat doughnuts.

The event benefits the Child Life Program of Nemours Children’s Hospital and Camp Boggy Creek. The Child Life Program helps patients and families cope with medical treatment through play, preparation, education and self-expression.
Help for Children with Rare Orthopedic Conditions

Nemours/Alfred I. duPont Hospital for Children in Wilmington, Del., has a 75-year legacy of caring for children with orthopedic conditions, including all types of skeletal dysplasia. Genetics has been an important component of research and clinical care from the beginning.

Dr. Michael Bober, an orthopedic geneticist at duPont Hospital for Children, has received support from the Walking with Giants Foundation and The Potentials Foundation to support research of primordial dwarfism and from Rhizo Kids International to support research of rhizomelic chondrodysplasia punctata.

With these grants, the Division of Orthogenetics has hired a research assistant and is building a repository of medical information about individuals with these extremely rare conditions. Ultimately, the grants are facilitating analysis of conditions where research is greatly needed.

Dr. Michael McCulloch
Dear Dr. Thacker,

Thank you for taking care of me when I had a tumor in my leg. Thanks to you, I am walking again with no problems. You are the best orthopedic doctor ever!

Sincerely,

Logan (age 13) and family

4 Easy Ways to Give

2. Mail a donation to your local fundraising office. (See below.)
3. Donate stock or other property.
4. Create a legacy by remembering Nemours in your will or estate plans.

If you wish to have your name removed from the list to receive this communication or future fundraising requests supporting the Nemours Fund for Children’s Health, please email giving@nemours.org or write to us at: Nemours Fund for Children’s Health, Shands House, 1600 Rockland Road, Wilmington, DE 19803.
Thank you for helping our kids.

Why I support Nemours
A note from Denni Ferrara, President of the Leukemia Research Foundation of Delaware

The Leukemia Research Foundation of Delaware is devoted to finding cures for childhood cancer. Because our volunteer team gives so much time and energy and because the cause is so critical, it is important to know that our grants make a difference. We have found a perfect partner in Nemours.

The Nemours Center for Cancer and Blood Disorders (NCCBD) is a collaborative national leader in childhood cancer research. Dr. Andy Kolb, director of NCCBD, plays multiple roles in the Children’s Oncology Group, a clinical trials group supported by the National Cancer Institute. Dr. Kolb’s national perspective and hands-on clinical knowledge give him incredible insight on research opportunities and priorities.

We are proud that our investment at Nemours has fostered collaboration and helped leverage additional grants. We also value the fact that Nemours uses 100 percent of our grants for research without applying administrative fees.

In 2015, our support funded groundbreaking advances in genomic research, which is critical to the fight against childhood leukemia. We are pleased and proud to be working with Nemours to help children facing cancer.

Denni Ferrara and Christine Myers of the Leukemia Research Foundation of Delaware (third and fourth from the left, respectively) present a check to Dr. David Bailey, president and chief executive officer of Nemours; Dr. Andy Kolb, director of the Nemours Center for Cancer and Blood Disorders; and Lori Counts, operational vice president of the Nemours Fund for Children’s Health.
